## Why STORI?

At STORI, we want to help you create aspirational living spaces, effortlessly. That is why we partner with the best independent retailers across the UK and Ireland to provide you with a local buying experience that is seamless from the very first interaction.

Our beautifully crafted furniture collection can be tailored to your lifestyle, taste and budget to achieve a stunning yet functional design that will add value to your home and everyday living.

With a 5 year warranty as standard, along with a world class supply chain, you can be confident that when STORI is at the heart of your home, your living spaces will be worth sharing.

# STORI

### *30+ years of industry expertise*

Providing you with a seamless experience.

### *Nationwide STORI approved retailers*

Find one local to you.

### *Endless possibilities for any space*

With an extensive collection for every style & budget.

### *Exceptional quality*

You can trust with industry accreditations & warranties.

### *Sustainably responsible*

From our material selection to our in-house processes.

## *The STORI way*

When you are making an investment in your home, you want to know you're purchasing from an expert who cares about your project from your initial appointment right through to aftercare.

That is why we partner with selected independent retailers across UK & Ireland who are specifically appointed to provide you with a seamless, professional experience.

## What to expect from your STORI retailer

### *Natural problem solvers*

Our STORI retailers have a wealth of design experience and are skilled in crafting beautiful, yet practical spaces that will enhance both your daily life and your home's overall value. Simply share your vision and they will expertly bring it to life.

### *Dedicated expertise*

Your STORI retailer can also advise on various other aspects of your new space. They offer a bespoke service from the outset, matching your ideas with their knowledge to collectively transform any room in your home.

### *Community connections*

Supporting independent retailers benefits your local community. Your patronage keeps money circulating locally, fostering job creation and economic growth. Personalised experiences and genuine connections are prioritised, preserving your community's uniqueness and prosperity.

### *A one-stop shop*

Many of our STORI retailers can provide you with a 'one-stop shop' for your entire project. Our retailers can manage your project from start to finish, to ensure a smoother process.

## Be inspired

We are here to help guide you on your journey in creating a new bedroom, kitchen or living space. To gather further ideas for your project, you can browse our online image gallery which showcases our full collection. Simply filter by room type, style, finish and even colour to feed your imagination and create your ultimate wish list!

Have you featured STORI ranges in your home?  
Share your STORI with us. Use the hashtag #StoriSpaces  
for a chance to be showcased.

## Real stories

We are proud to have our ranges featured in homes throughout UK & Ireland, spaces which have been expertly designed and installed by our approved network of STORI retailers.

Ranging from small spaces with limited storage to larger, more spacious room settings, our collection caters for all types of homes and lifestyles, regardless of style, taste or budget.

Check out the Real Stories on our website and take inspiration from design elements other homeowners have opted for from the STORI collection.

# Door care & maintenance

With appropriate care and maintenance, our bedroom doors and accessories are designed to provide years of reliable service. To keep it in the best possible condition, please follow the simple guidelines below.

Bedroom frontals are designed for domestic use, we recommend that each area / cabinet in the bedroom is maintained within domestic temperature and humidity levels. We recommend a temperature range of 16°C - 24°C and a relative humidity range of 40% to 60%.

Please note your guarantee may be adversely affected if used for non-general domestic environments.

## INSTALLATION ADVICE

### Pre-installation:

Ensure that all new-builds or newly plastered rooms have been left to environmentally stabilise prior to the installation of new bedroom doors & accessories. They must not be installed in a damp, or moisture-rich environment as it will cause undesirable movement in the joints and panels of the door. A hygrometer should be used to assess conditions.

To help minimise any potential damage to the bedroom whilst you are installing it, please read and adhere to the following instructions and recommendations:

- We would advise that you make an initial check to confirm that you have the correct quantity and size of fascias; you can do this by referring to the labels attached to the outer packaging.
- Ensure that you fully inspect each individual fascia prior to attaching the hinges. Claims for damage to the fascia will not be accepted after the hinges have been attached.
- Do not stack the doors on their ends on any hard surface; this can cause chipping and scratching along the edge of the fascia, especially on the handle edge of ranges with an integral handle. Prior to fitting, the fascias should be stored flat, ensuring that they are not resting on any dirt or debris that may damage or mark the finish.
- Take extreme care when stacking the fascias with hinges attached to ensure that the hinges do not mark other fascias. Do not lean the fascias against one another, or against any surface without proper protection in-between.

- You should take extreme care not to put the door down with excessive force on any edge, especially the handle edge, as this will cause crushing/ impact damage on these edges.
- If the fascias are attached to the carcase, then you should carefully remove the fascias by unclipping the hinges and storing these flat in a clean safe environment away from your working area, utilising the packing materials from the units.
- Take extreme care when unpacking the fascias and do not use sharp blades to cut away the packaging.
- Where cutting/scribing décor panels and trim, you must use a sharp quality saw blade of the appropriate grade for fine-cutting, or a suitable router. Small chips can appear along the cut-edge, and so extra care must be taken to minimise the risk of chipping. Using a blunt or inappropriate saw blade will produce a poor finish, and this will not be covered by the guarantee.
- All cut edges should be sealed against moisture ingress using a suitable water-resistant sealant/ adhesive prior to installation.
- When attaching the hinges, place the fascia face down on a soft, clean surface, ensuring that there is no grit, sawdust or other matter underneath that can damage the surface of the fascia whilst the hinges are attached. It is good practice to place a sheet of clean cardboard between the fascia and the flat surface prior to attaching the hinges.
- If the hinges are 'knock-in' type, use a rubber mallet to knock the hinges into the fascia without using excessive force.
- Once the hinges have been attached to a door, hang the door on the unit straight away to avoid damage. Do not stack the doors with the hinges touching other doors, as this can cause scratches or marks to the other fascias.
- On Painted Products - Any fine chips along the cut edge should be smoothed with a fine grade sandpaper prior to fitting.
- All trims are supplied in long lengths and need to be cut down on site, using the appropriate tools.

## GENERAL CARE

### Heat & moisture:

As with all bedroom furniture the most common problems found occur due to excessive or prolonged exposure to heat and/ or moisture.

- Spills and condensation on all surfaces should be cleaned and dried immediately; as damage caused as a result is not covered by warranty.
- Heated electrical appliances should not be placed directly or against the bedroom furniture surfaces.
- Care must be taken to prevent liquid accumulating on or adjacent to plinth and panels. These areas should be dried thoroughly after cleaning.
- Excessive heat and condensation should be correctly ventilated where bedroom units are fitted.

### Light & colour:

The colour of doors and drawer fronts may appear mismatched in colour. This apparent mismatch is sometimes the effect of differing light conditions within your bedroom, (known as metamerism). To check your doors and fascia you should place them side by side in natural daylight for comparison.

Please note that after a period of time, it is normal for the colouring of doors and accessories to mellow in colour. Timber & light lacquered surfaces have a certain tendency to "yellow with age." This is not a manufacturing fault and is due to exposure to light. The product material, finish and the intensity of exposure will affect the rate of change. Due to this, we advise that colour change is taken into consideration when replacing or fitting new doors sometime after the original bedroom has been installed, as replacements may not be an exact colour match. This also should be taken into consideration when choosing colours from your retailer's samples and swatches.

### Cleaning advice for all door types including Timber, Painted & Foil:

- Periodically clean the interior and exterior surfaces of the door using a soft, damp cloth. Wipe dry all surfaces after cleaning.
- Do not use wax-furniture polish, abrasive or aggressive cleaners, bleach, or other hypochlorite (chlorine) based cleaners, multipurpose cleaners, dilutes, acetone, alcohol, solvent, or similar products on the door, as this will damage the surface; additionally wax and polishes leave a residue build up that is difficult to remove.

- Only use a 5% soap, 95% water (liquid soap) solution, wiping with a damp (not wet) cloth, finally drying with a soft, clean cloth only.
- Do not expose the doors or panels to temperature in excess of 60°C (140°F) (Approximately the temperature of washing up water).
- Dust with a soft cloth only.
- Never use any abrasive pads or abrasive cleaners on the furniture.
- If using glass cleaner to clean your glass doors be careful not to damage the finish of the door and cabinet parts while cleaning. Do not spray glass cleaner directly on to the glass or cabinet parts as this may discolour the finish of your bedroom cabinets. Instead, spray a small amount of cleaner on to a lint free cloth or paper towel then wipe the glass.
- Ensure all splashes, spills and condensation on the fascias/panels are wiped immediately with a damp cloth; and dried immediately.
- If the surface of the product is exposed to any oil-based substance, the spillage must be wiped away immediately to help prevent staining.

### Foil finished doors – additional care advice:

Foil/Lacquer coated products are manufactured from the highest quality materials. Your doors may come with a protective film over the front. You should remove this only after they are installed as the curing process continues for around 72 hours after the film is removed. This means the doors will be liable to scratching and other marks. You should avoid cleaning the doors for at least a few days to prevent any marks appearing on the surface.

**Moisture:** Please be careful not to puncture the foil/ melamine lacquered surface. These should be kept dry to prevent moisture ingress.

**Light:** If the doors are supplied with a protective film on the face they must not be directly exposed to sunlight. Once installation is complete, carefully remove the protective film from the front of the fascia.
